PROFILE

BI & Data Analyst translating operational data into decision-ready reporting across **education technology, distribution and Canadian automotive manufacturing**. **Career path:** biometric attendance reporting -> sales/market analytics -> manufacturing reporting -> dashboard support -> modern BI/data engineering. Technical core: **Power BI, SQL Server, DAX, Power Query, dimensional modeling, ETL and data quality**; expanding into Fabric/Lakehouse/PySpark.

CORE SKILLS

BI & Analytics: Power BI | DAX | Power Query | KPI/Executive Reporting | Data Visualization | Requirements | Stakeholder Reporting

SQL & Data: SQL Server/T-SQL | SSMS | ETL | OLTP/OLAP | Star Schema | Data Warehouse | Data Quality/Validation

Tools & Next: Advanced Excel | Python/Pandas | Git/GitHub | Microsoft Fabric | Lakehouse | PySpark fundamentals

PROFESSIONAL EXPERIENCE

TG Minto Corporation | FTM, Paint Assembly | Dashboard Support

Jul 2026-Present | Ontario

- Support production dashboards and reporting across **target vs. actual, downtime, quality/material-flow signals and operational KPI visibility** in automotive Paint Assembly.
- Use shop-floor context to interpret reporting signals, surface operational issues and connect manufacturing workflows to analytics use cases.
- Build domain fluency around **production flow, downtime classification, quality signals and continuous-improvement reporting** without exposing proprietary employer data.

LTI | Production Associate | Reporting & Data Maintenance

Feb 2025-May 2026 | Ontario

- Generated and maintained recurring **production/operations reports**; verified source records for completeness, consistency and reporting continuity.
- Supported supervisors with accurate production-status information and day-to-day report maintenance in a plastics manufacturing environment.

Super Collection (Akari) | Junior Data Analyst | Sales & Market Reporting

Apr 2021-Jul 2023 | Mumbai

- Managed **sales, market, inventory and distributor reporting** for directors, managers and sales/marketing teams; translated business activity into recurring management views.
- Validated source data and analyzed **product trends, slow-moving inventory, market gaps and performance exceptions** requiring management attention.
- Worked across sales, warehouse and operations stakeholders to keep recurring reporting aligned with how the business actually moved product and inventory.

PowerStudent | Data Executive | Attendance Reporting & Client Support

Aug 2019-Mar 2020 | Mumbai

- Worked on-site at a college as the **company-college liaison**, managing biometric attendance data and recurring reports for professors and administration.
- Validated attendance records, resolved missing/inconsistent entries and coordinated data/system issues with users and the service provider.

SELECTED PROJECTS

NovaTrade Sales & Inventory Analytics Platform | SQL Server | Power BI | DAX | Power Query | Python | GitHub

- Built an end-to-end **staging -> OLTP -> star-schema DW -> validation -> semantic model -> Power BI** workflow for a simulated distribution business; processed **1.35M+ fact records**.
- Delivered executive, sales, product and inventory analytics with **DAX KPIs, YTD/MTD/YoY analysis, data-quality checks and dynamic RLS**.

Manufacturing Intelligence Platform | In Development | Microsoft Fabric | Lakehouse | Delta | PySpark | SQL | Power BI

- Designing a layered **ingestion -> validation -> transformation -> Lakehouse -> semantic/reporting** architecture using synthetic manufacturing data.
- Modeling **production, downtime, quality, material flow, WIP/inventory and supplier events** for production-loss and operational intelligence; no employer data used.

EDUCATION & CREDENTIALS

Conestoga College - PG Cert - Reporting Systems & Database Development | 2024

Conestoga College - PG Cert - Big Data Solutions & Architecture | 2024

Vidyalankar School of Information Technology - BSc Information Technology | 2019

Microsoft Power BI Data Analyst Professional Certificate | Microsoft SQL Server Professional Certificate | PL-300 exam scheduled Sep 12, 2026
